

# The Future Begins with a Dream

Our dream is to make the world  
more comfortable, secure and sustainable.  
In developing each of our technologies,  
we continually envision a future in which  
we "live in harmony with nature."

Today's Work, Tomorrow's Heritage

SHIMIZU CORPORATION   
**SHMZ**

## The Environmental Island **GREEN FLOAT**

A marine city floating on the waters of the Pacific. By combining nature's boundless stores of solar, wind and marine energy with the latest technological innovations, we can ensure a self-sustaining supply of energy and food that goes beyond carbon neutral into carbon negative. This "botanical city" provides a path towards sustainable co-existence in which people and nature can live in comfort and harmony.
