# CORPORATE PROFILE

## Today's Work, Tomorrow's Heritage

In 1804, a carpenter named Kisuke Shimizu opened a carpentry shop in Kanda Kajicho, a district of Edo (now Tokyo). This marked the start of Shimizu Corporation's history.

During the company's early years, Shimizu appointed Eiichi Shibusawa, a renowned industrialist of the Meiji Era (1868-1912), to serve as senior advisor, and based its management style on his book, *The Analects and the Abacus*. This work set forth his concept of how businesses can contribute to society based on the unity of ethics and economics.

"With devotion and a spirit of innovation, we work to create value that exceeds expectations and contribute to a sustainable tomorrow" even as the needs of our customers become more diverse over time. These are the management principles of Shimizu.

Looking ahead, we will continue to fulfill our social responsibility as a construction company. That means providing safe and reliable infrastructure, enhancing disaster resilience, and promoting environmental sustainability. At the same time, we will cultivate new businesses as part of the global movement to achieve the SDGs.

Shimizu works with great passion in order to hand down the Shimizu heritage to our children and future generations. We express this approach with our corporate slogan: "Today's Work, Tomorrow's Heritage."

Shimizu Group's Strategy Towards 2030

## SHIMZ VISION 2030

### *Smart Innovation Company*

The Shimizu Group will create new value and contribute to a safe, healthy and sustainable future for everyone by transforming and challenging ourselves beyond construction and co-creating with diverse partners.

Corporate Slogan

## Today's Work, Tomorrow's Heritage

We have cultivated what Shimizu stands for throughout our history and will continue to create new history.

This slogan expresses the message that we want people around the world to understand.

It is our resolute pledge to reflect that attitude in the performance of all processes, and in the individual conduct and actions of each and every employee.

# Shimizu's History

## Forging a Path to a New Era through a Spirit of Innovation

Shimizu has provided value that exceeds the expectations of customers. We have accomplished this while maintaining the high aspirations of our founder Kisuke Shimizu I in taking a sincere approach to monozukuri craftsmanship and preserving and passing on the enterprising spirit of anticipating the times and taking on new challenges.

Japanese Only

### The two Kisuke's laid the foundation for Shimizu Corporation

Shimizu was founded in 1804. It all began when Kisuke Shimizu I, born in Etchu, Toyama Prefecture, opened a carpentry shop in the Kanda Kajicho district of Edo (present day Tokyo). From the moment of the company's founding, Kisuke aspired to wholeheartedly devote himself to the company's work and create quality, reliable products, putting customers first and winning new clients with his excellent workmanship and sincere personality. He laid the foundation for his business by serving as an official carpenter for the families of feudal lords. In the late Edo period, Kisuke Shimizu II built the Tsukiji Hotel, Japan's first authentic Western-style hotel in the Tsukiji district where foreigners lived. In addition to its financing and construction, the company managed the hotel after its completion. His next project, the Dai-Ichi National Bank (formerly the Mitsui-gumi House), was Japan's first bank construction. The foundation of the business was solidified with a spirit of innovation exemplified by boldly taking on the unprecedented challenge of building a bank, advanced technological capabilities, and the trust cultivated during the course of the company's work.

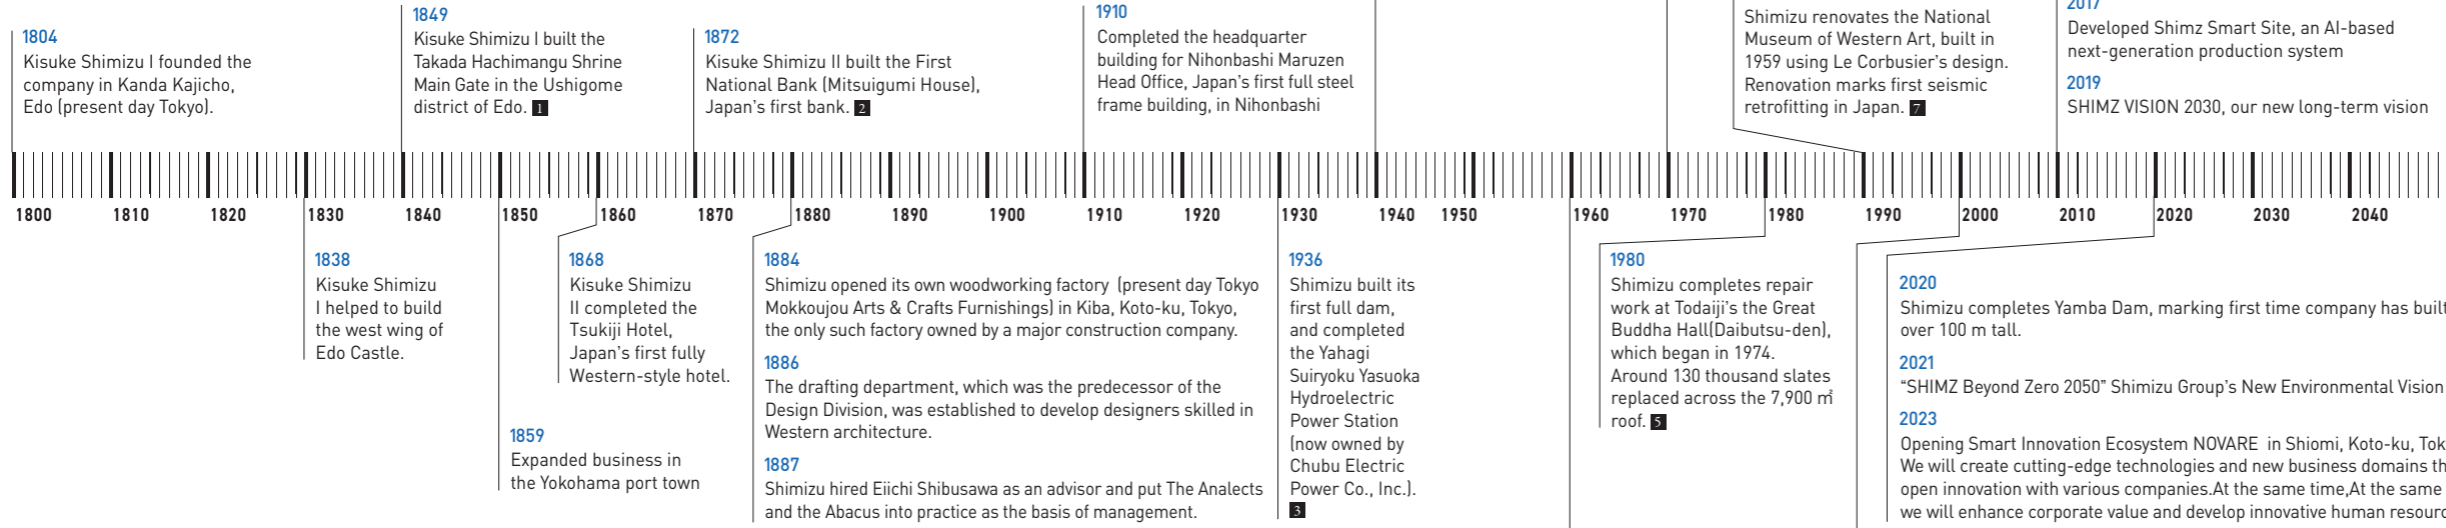

Kisuke Shimizu I

Kisuke Shimizu II

**1844**  
Established the research department in the Design Division, which was the predecessor to the Institute of Technology, as the first in the industry

**1948**  
Company name changed from Shimizu Gumi to Shimizu Corporation.

# Building Construction

Shimizu proposes, plans, designs, builds, and manages the operation and maintenance of offices, plants, schools, hospitals, and a variety of other buildings.

**1** Dai-ichi Life Kyobashi Kino Terrace (Tokyo, 2025)

**3** CREVA OKUMA·KUMA SUN TERRACE (Fukushima, 2025)

**5** TOKYU KABUKICHO TOWER (Tokyo, 2023)

**2** Expo 2025 Osaka, Kansai, Japan, Japan Pavilion (Osaka, 2025)
